

Public Notice

U.S. Army Corps Of Engineers	Permit Application No:	NWP Reissuance
	Date Issued:	2 November 2006
Albuquerque District	Comments Due:	18 December 2006

NATIONWIDE PERMIT REISSUANCE REQUEST FOR COMMENTS

On September 26, 2006, the U.S. Army Corps of Engineers published in the Federal Register its proposal to reissue its nationwide permits (NWP).

Nationwide permits are general permits issued on a nationwide basis to streamline the authorization of activities that result in minimal individual and cumulative adverse effects on the aquatic environment. Many of the proposed NWPs require notification to the district engineer before commencing the work, to ensure that the activities authorized by those NWPs have minimal individual and cumulative adverse impacts on the aquatic environment.

National Issues Concerning the Proposed NWPs: The Federal Register notice is the public's opportunity to comment on the proposed NWPs, general conditions, and definitions. Comments on national issues relating to these NWPs should be submitted to docket number COE-2006-0005 at www.regulations.gov. Instructions for submitting comments are provided in the September 26, 2006, Federal Register notice. Comments on the proposed NWPs are due by November 27, 2006.

Regional Issues Concerning the Proposed NWPs, Including Regional Conditioning: Division engineers are authorized to add regional conditions specific to the needs and/or requirements of a particular region or state. Regional conditions are important mechanisms to ensure that impacts to the aquatic environment authorized by the NWPs are minimal, both individually and cumulatively. Division engineers may also suspend or revoke specific NWPs in certain geographic areas (e.g., states or watersheds) or high-value aquatic systems where impacts authorized by those NWPs may be more than minimal. An enclosure for this public notice (Enclosure 1) lists the proposed regional conditions for Colorado currently under consideration by the Albuquerque District. As the lead district for the Corps Regulatory Program within Colorado, the Albuquerque District is seeking comments on the proposed regional conditions and seeking comments on the need for additional regional conditions to help ensure that impacts authorized by the proposed NWPs are minimal. Unless otherwise noted, all

proposed regional conditions listed on this enclosure are applicable for activities in Colorado. Comments on regional issues relating to the proposed NWP and regional conditions are to be sent to Albuquerque District, Regulatory Branch, 4101 Jefferson Plaza NE, Albuquerque, NM 87109-3435, Attn: Mr. Donald Borda. Comments relating to regional conditions are due by December 18, 2006. Similar public notices proposing regional conditions in other regions or States are being published concurrently by other division or district offices.

In conjunction with the Federal Register notice, Corps districts will be announcing proposed regional conditions for these NWP for public comment. When the final NWP are issued, the final regional conditions will be issued at the same time so that the States and Tribes can make their Clean Water Act Section 401 water quality certification consistency determination decisions. The 401 decisions must be made within 60 days of the Federal Register notice announcing the issuance of the NWP. After that 60-day period, the NWP and the regional conditions will become effective.

Draft decision documents, which include environmental documentation required by the National Environmental Policy Act, have been prepared by Corps Headquarters. The decision documents will address compliance of the NWP with the requirements for issuance under general permit authority. These documents, as well as the proposed NWP, are available for viewing at the above address or on the Internet at the www.regulations.gov site (docket ID number COE-2006-0005). Final decision documents will be prepared for those NWP that are issued. In addition, supplemental decision documents will be issued by division engineers to address their determinations concerning regional conditions for the NWP.

Enclosed is an index of the proposed NWP and conditions. Anyone wishing to provide comments may obtain a full text copy of the NWP through www.regulations.gov (docket ID number COE-2006-0005), the Corps home page or the Federal Register address listed below.

Internet addresses:

Copies of the Federal Register notice and the draft decision documents will also be available at <http://www.regulations.gov> in docket ID number COE-2006-0005.

Index of Proposed Nationwide Permits, Conditions, and Definitions

Proposed Nationwide Permits

1. Aids to Navigation
2. Structures in Artificial Canals
3. Maintenance
4. Fish and Wildlife Harvesting, Enhancement, and Attraction Devices and Activities
5. Scientific Measurement Devices
6. Survey Activities
7. Outfall Structures and Associated Intake Structures
8. Oil and Gas Structures on the Outer Continental Shelf
9. Structures in Fleeting and Anchorage Areas
10. Mooring Buoys
11. Temporary Recreational Structures
12. Utility Line Activities
13. Bank Stabilization
14. Linear Transportation Projects
15. U.S. Coast Guard Approved Bridges
16. Return Water From Upland Contained Disposal Areas
17. Hydropower Projects
18. Minor Discharges
19. Minor Dredging
20. Oil Spill Cleanup
21. Surface Coal Mining Operations
22. Removal of Vessels
23. Approved Categorical Exclusions
24. Indian Tribe or State Administered Section 404 Programs
25. Structural Discharges
26. [Reserved]
27. Aquatic Habitat Restoration, Establishment, and Enhancement Activities
28. Modifications of Existing Marinas
29. Residential Developments
30. Moist Soil Management for Wildlife
31. Maintenance of Existing Flood Control Facilities
32. Completed Enforcement Actions
33. Temporary Construction, Access, and Dewatering
34. Cranberry Production Activities
35. Maintenance Dredging of Existing Basins
36. Boat Ramps
37. Emergency Watershed Protection and Rehabilitation
38. Cleanup of Hazardous and Toxic Waste

- 39. Commercial and Institutional Developments
- 40. Agricultural Activities
- 41. Reshaping Existing Drainage Ditches
- 42. Recreational Facilities
- 43. Stormwater Management Facilities
- 44. Mining Activities
 - A. Emergency Repair Activities
 - B. Discharges into Ditches and Canals
 - C. Pipeline Safety Program Designated Time Sensitive Inspections and Repairs
 - D. Commercial Shellfish Aquaculture Activities
 - E. Coal Remining Activities
 - F. Underground Coal Mining Activities

Proposed Nationwide Permit General Conditions

- 1. Navigation
- 2. Aquatic Life Movements
- 3. Spawning Areas
- 4. Migratory Bird Breeding Areas
- 5. Shellfish Beds
- 6. Suitable Material
- 7. Water Supply Intakes
- 8. Adverse Effects from Impoundments
- 9. Management of Water Flows
- 10. Fills Within 100-Year Floodplains
- 11. Equipment
- 12. Soil Erosion and Sediment Controls
- 13. Removal of Temporary Fills
- 14. Proper Maintenance
- 15. Wild and Scenic Rivers
- 16. Tribal Rights
- 17. Endangered Species
- 18. Historic Properties
- 19. Designated Critical Resource Waters
- 20. Mitigation
- 21. Water Quality
- 22. Coastal Zone Management
- 23. Regional and Case-by-Case Conditions
- 24. Use of Multiple Nationwide Permits
- 25. Transfer of Nationwide Permit Verifications
- 26. Compliance Certification
- 27. Pre-Construction Notification

Proposed Nationwide Permit Definitions

Best management practices (BMPs)
Compensatory mitigation
Currently serviceable
Enhancement
Ephemeral stream
Establishment (creation)
Independent utility
Intermittent stream
Loss of waters of the United States
Non-tidal wetland
Open water
Perennial stream
Practicable
Pre-construction notification
Preservation
Re-establishment
Rehabilitation
Restoration
Riffle and pool complex
Riparian areas
Single and complete project
Stormwater management
Stormwater management facilities
Stream bed
Stream channelization
Structure
Tidal wetland
Vegetated shallows
Waterbody
